---

THE WESTERN UNIVERSITY AND COLLEGE, of London, Ontario, was established in 1878, by an Act of the Legislature of Ontario, XLI. Vict., Chap. 70, and empowered to confer Degrees in Divinity, Arts, Law, Medicine, Etc., subject to the provisions of paragraph 10 of said Act.

The Right Reverend Bishop Hellmuth, D. D., and the Alumni of Huron College were chiefly instrumental in the establishment of the said University ; the fundamental object of which was to promote the higher scholastic training and instruction of students of Huron College, and also to provide further facilities for higher instruction generally in Arts, Science, Literature, Law, Medicine, and Engineering.

This University is open to all who desire to avail themselves of its advantages, without any denominational test whatsoever, except in the case of students in Divinity who may propose to enter the Ministry of the Church of England.

The Western University and College commenced its actual work of instruction in October, 1881, with Huron College in affiliation as the Divinity Faculty thereof. The Medical Faculty began work in October, 1882, and has since continued in successful operation. The Arts Department was left in abeyance for a few years, but through the cordial co-operation of the Bishop of Huron and the Council of Huron College, the Senate is now enabled to reopen the Arts Department with encouraging prospects of success.

Lectures in Arts will be delivered at Huron College, where there is ample accommodation for large classes.

## THE FACULTY OF ARTS.

In this Faculty the curriculum of Toronto University is adopted. The course of study for 1895-6 will be that of the First and Second years of the General Course of said University, after which the full course will be taught.

---

### DEGREE OF BACHELOR OF ARTS.

---

#### Entrance.

Candidates may enter this Faculty by passing the Junior Matriculation examination or the Senior Matriculation examination (which latter will be accepted *pro tanto*. on first year's work).

Candidates for Junior Matriculation must have completed the sixteenth year of their age.

Candidates for entrance must produce satisfactory certificates of age and of good conduct.

All candidates for Junior Matriculation shall take the following subjects :—Latin, English, History, Mathematics, French *or* German, and either (1) Greek *or* (2) the second Modern Language with Physical Science (Physics and Chemistry).

The examinations may be taken at once or may be divided into the following two parts, of which (I.) shall be taken before (II.) and in a different year.

Junior Leaving certificates will be accepted *pro tanto*. at both Part I. and Part II. of the Junior Matriculation examination, but candidates who desire to compete for scholarships or relative standing will not be granted this exemption in the case of Part II.

All candidates for Senior Matriculation shall take the following subjects :—English ; Latin ; any two of the following languages, viz., Greek, French, German, Hebrew ; Ancient History ; Mathematics ; Physics *or* Biology.

The ordinary annual examinations for Junior Matriculation will commence in July, and applications therefor must be sent to the Education Department, through the Public School Inspector or the Registrar of the University, not later than 24th May, except in the case of candidates for Scholarships, whose application and fee must be sent to the Registrar of the University by the above-mentioned date.

Candidates failing in one or more subjects of Part I. or of Part II. must repeat the whole examination in which such failure occurred.

Supplemental examinations for Junior and Senior Matriculation will be held in the Western University about the middle of September, at which those who are rejected at previous examinations, as well as new candidates, may present themselves ; but no honors or scholarships will be awarded at such examinations. Applications therefor must be sent to the Registrar of the University not later than 1st September.

NOTE.—That the examinations for Junior and Senior Matriculation in 1895 begin on October 1st.

The fee for the Junior Matriculation examination is seven dollars; that is, two dollars for Part I. and five dollars for Part II. The fee for Senior Matriculation examination is ten dollars, and for Supplemental Matriculation, five dollars, and must in every case be paid at the time of application.

Until the Senate by resolution otherwise determines, the standing of candidates who have passed, or who may hereafter pass, the examination of the Department of Education, for First or Second Class Teachers' Certificates, is accepted *pro tanto* at any Junior Matriculation examination.

First Class Teachers' Certificates, or Senior Leaving Certificates, or certificates of having passed portions of the examination for such certificates, may be accepted *pro tanto* at the Senior Matriculation and First year examinations.

An undergraduate in the Faculty of Arts in another University, may be admitted *ad eundem statum*, on such conditions as the Senate may prescribe.

Candidates in all the years are required to send to the Registrar of the University, at least four weeks before the commencement of each examination, an application for examination according to a printed form to be obtained from the Registrar, and such application must be accompanied by the fee of ten dollars.

At the beginning of the Second or Third year a candidate may be transferred from the General course to an Honor course, or *vice versa*, by passing an examination on such subjects, and by obtaining therein such a percentage as may be required by the Senate in view of the nature of the transfer granted.

Undergraduates in the General course in the Third year may, in lieu of one or more of the subjects prescribed for this year, take certain of the following subjects, namely, Biblical Greek, Biblical Literature, Apologetics, Church History, and Christian Ethics.

## JUNIOR MATRICULATION.

### PART I.

#### English Grammar and Rhetoric.

The main facts in the development of the language. Etymology and Syntax, including the inflection, classification, and elementary analysis of words, and the logical structure of the sentence. Rhetorical structure of the sentence and paragraph. As far as possible, the questions shall be based on passages from authors not prescribed.

#### Arithmetic and Mensuration.

ARITHMETIC : Proofs of Elementary Rules ; Fractions (Theory and Proofs); Commercial Arithmetic.

MENSURATION : Rectilinear figures, right parallelopiped, prisms, and pyramids ; the circle, sphere, cylinder, and cone.

#### History of Great Britain and Canada.

Great Britain and Canada from 1763 to 1871, with the outlines of the preceding periods of British History.

The Geography relating to the History prescribed.

#### Physics.

An experimental course defined as follows :—

Metric system of weights and measures. Use of the balance. Phenomena of gravitation. Matter attracts matter. Laws of attraction. Cavendish experiment. Attraction independent of condition. Illustration of weight of gases, liquids, and solids. Specific gravity.

Meaning of the term “a form of matter.” All matter may be subjected to transmutation ; “Chemistry ;” application of measurement by weight (mass) to such transmutation leads to the theory of elements. Matter indestructible.

Meaning of “force” Various manifestations of force, with illustrations from the phenomena of electricity, magnetism, and heat. Force measured in gravitation units ; consequent double meaning of the terms expressing units of weight as mass, and units of weight as force.

Meaning of “Work.” Measurement of work in gravitation units. Meaning of “Energy.”

Effects of force continuously applied to matter. Laws of matter in motion. Velocity. Acceleration. Statement of Newton's Laws of Motion. Definition of “Mass.” Meaning, value, and application of “g.” Mass a measure of matter.

Conservation of Energy. Energy, like matter, indestructible and transmutable.

Study of the three states of matter. Properties and laws of gases, liquids, and solids. Laws of diffusion.

Elementary laws of heat. Mechanical equivalent. Latent heat. Specific heat. Caloric.

## PART II.

### Greek.

Translation into English of passages from prescribed texts.

Translation at sight (with the aid of vocabularies) of easy Attic prose, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the prescribed texts by additional practice in the translation of Greek.

Grammatical questions on the passages from prescribed texts shall be set, and such other questions as arise naturally from the context.

Translation from English into Greek, of sentences and of easy narrative passages, based upon the prescribed prose texts.

The following are the prescribed texts :—

1896 : Selections from XENOPHON, *Anabasis* I., in White's *Beginner's Greek Book* (pp. 304-428), with the exercises thereon ; HOMER, *Iliad* I.

### Latin.

Translation into English of passages from prescribed texts.

Translation at sight (with the aid of vocabularies) of passages from some easy prose author, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the prescribed texts by additional practice in the translation of Latin.

Grammatical questions on the passages from prescribed texts will be set, and such other questions as arise naturally from the context.

Translation from English into Latin, of sentences and of easy narrative passages, based upon the prescribed prose texts.

The following are the prescribed texts :—

1896 : VIRGIL, *Æneid* III. ; CÆSAR, *Bellum Gallicum* V., VI.

### Mathematics.

ALGEBRA : Elementary Rules ; Highest Common Measure ; Lowest Common Multiple ; Fractions ; Square Root ; Simple Equations of one, two and three unknown Quantities ; Indices ; Surds ; Quadratics of one and two unknown Quantities.

GEOMETRY : Euclid, Books I., II., and III ; Deductions.

### French.

The candidate's knowledge of Grammar will be tested mainly by questions based upon prose extracts.

The Examination in Composition will consist of (*a*) translation into French of short English sentences as a test of the candidate's knowledge of grammatical forms and structure; (*b*) formation in French of sentences of similar character, and (*c*) translation of passages from English into French.

Translation at sight of modern French, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the following texts by additional practice in the translation of French :—

1896 : ÉNAULT, *le Chien du Capitaine*; FEUILLET, *la Fée*.

### German.

The candidate's knowledge of Grammar will be tested mainly by questions based upon prose extracts.

The Examination in Composition will consist of (*a*) translation into German of short English sentences as a test of the candidate's knowledge of grammatical forms and structure; (*b*) formation in German of sentences of similar character, and (*c*) translation of passages from English into German.

Translation at sight of modern German, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the following texts by additional practice in the translation of German :—

1896 : HAUFF, *das Kalte Herz*, Kalif Storch.

### English.

COMPOSITION : An essay, to which special importance will be attached, on one of several themes set by the examiners. In order to pass in this subject, legible writing, correct spelling and punctuation, and proper construction of sentences are indispensable. The candidate should also give attention to the structure of the whole essay, the effective ordering of the thought, and the accurate employment of a good English vocabulary. About three pages of foolscap is suggested as the proper length for the essay; but quality, not quantity, will be mainly regarded.

LITERATURE : Such questions only shall be set as may serve to test the candidate's familiarity with, and intelligent and appreciative comprehension of, the prescribed texts. The candidate will be expected to have memorized some of the finest passages, and to have read carefully both prose and poetry outside of the specified work. In addition to questions on the following selections, others shall be set on a "sight passage" to test the candidate's ability to interpret literature for himself :—

1896.

COLERIDGE : The Ancient Mariner.

LONGFELLOW : Evangeline, A Gleam of Sunshine, The Day is Done, The Old Clock on the Stairs, The Fire of Driftwood, Resignation, The Ladder of St. Augustine, A Psalm of Life, The Builders, The Warden of the Cinque Ports.

The following selections from Palgrave's Golden Treasury :—

WORDSWORTH : The Education of Nature, A Lesson, To the Skylark, To the Daisy ; and the following Sonnets : To a Distant Friend, "Oh Friend ! I know not which way I must look," "Milton ! Thou shouldst be living at this hour," To Sleep, Within King's College Chapel.

CAMPBELL : "Ye Mariners of England," Battle of the Baltic, Hohenlinden, The River of Life.

COLERIDGE : Youth and age.

### **Ancient History.**

Outlines of Roman History to the death of Augustus, and of Greek History to the battle of Chaeronea.

The Geography relating to the History prescribed.

### **Chemistry.**

An experimental course defined as follows :—

Properties of Hydrogen, Chlorine, Oxygen, Sulphur, Nitrogen, Carbon, and their more important compounds. Nomenclature. Laws of Combination of the elements. The Atomic Theory and Molecular Theory.

## **UNDERGRADUATE GENERAL COURSE.**

The subjects to be taken by those pursuing the General course, with the options permitted, are set forth in the following schedule:—

FIRST YEAR . . . English ; Latin ; any two of the following languages, viz., Greek, French, German, Hebrew ; Ancient History ; Mathematics ; Physics *or* Biology.

SECOND YEAR . . . English ; Latin ; any two of the following languages, viz., Greek, French, German, Hebrew ; Mediæval History ; Logic ; Psychology ; Chemistry *or* Geology.

THIRD YEAR . . . English ; Latin ; any two of the following languages, viz., Greek, French, German, Hebrew ; Modern History ; English Constitutional History ; Ethics ; Physics.

FOURTH YEAR . . . English ; Latin ; any two of the following languages, viz., Greek, French, German, Hebrew ; Modern History as for Honors ; Economics ; Canadian Constitutional History ; History of Philosophy ; Astronomy.

## FIRST YEAR.

**English.**

SHAKESPEARE.—Critical Reading of the following plays :—

1896 : *Romeo and Juliet* ; *Merchant of Venice*.

COMPOSITION : The writing of four original compositions in connection with the study of models of prose style. There will be no examination on this portion of the work, but the marks assigned for compositions written during the term will count as Term Work.

**Latin.**

1896 : *LIVY*, XXII., and *HORACE*, Odes III., IV.

Questions will be added to the author papers on Grammar and Prosody and on the subject-matter of the books.

Latin Grammar ; Latin Composition ; Latin sight translation (prose authors).

**Greek.**

1896 : *HOMER*, *Odyssey*, Bks. XI., XII. ; *PLATO*, *Laches* and *Euthyphro*.

Greek Grammar ; translation at sight of easy passages of Greek ; translation from English into Greek involving a knowledge of Fletcher and Nicholson's Greek Prose Exercises.

**French.**

Grammar ; dictation ; translation from English into French ; translation at sight from easy modern French prose.

**German.**

Grammar ; dictation ; translation from English into German ; translation at sight from easy modern German prose.

**Hebrew.**

Essentials of Hebrew Grammar ; translation from English into Hebrew ; outlines of ancient Semitic history and geography.

Translation into English of *Genesis* I.-VI., XXXVII., XXXIX., XI., with grammatical analysis, parsing and vocabulary.

**Ancient History.**

General History of Greece to B.C. 146.

(Oman's History of Greece.)

General History of Rome to A.D. 476.

(Pelham's Outlines of Roman History.)

**Mathematics.**

ALGEBRA : Simple equations of one, two and three unknown quantities ; quadratic equations of one and two unknown quantities ; elementary treatment of variation, proportion, and progressions ; interest forms and annuities.

EUCLID : Bks. IV., VI., and definitions of Bk. V. ; deductions.

PLANE TRIGONOMETRY : Trigonometrical ratios with their relations to each other ; sines, etc., of the sum and difference of angles with deduced formulas ; solution of triangles, expressions for the area of triangles ; radii of circumscribed, inscribed and escribed circles.

**Physics.**

Elementary Physics (Mechanics, Hydrostatics and Heat).

**Biology.**

Elementary Biology.

## SECOND YEAR.

**English.**

COMPOSITION : The writing of four original compositions in connection with the study of models of prose style. There will be no examination on this part of the work, but marks assigned for compositions written during the term will count as Term Work.

## Faculty of Divinity.

HURON COLLEGE is affiliated with the Western University and constitutes the Divinity Faculty thereof. A separate Calendar, giving full information, may be obtained from the Secretary or Registrar of the University.

Huron College was founded as a Divinity School in 1863, by the Right Reverend Bishop Cronyn, D.D. The necessary funds, endowments, scholarships, &c., were obtained principally by The Right Reverend Bishop Hellmuth, D.D. ; the Reverend Dr. Peache, of England, giving £5,000 sterling to endow the Divinity Chair.

The Principles of the College are distinctively Protestant and Evangelical, as expressed in the XXXIX. Articles of the Church of England.

Students in Divinity are required to Matriculate in Arts in the Western University or other chartered university before entrance.

Students entering Huron College in 1895 are advised to take the Arts Course, followed by one year of special Study of Divinity. Arrangements will be made by which certain Divinity subjects may be taken instead of other subjects in the Arts Course.

For list of prizes, scholarships, &c., see separate Calendar. All fees for Tuition, Board, &c., are payable to the Registrar and Bursar of the University, Rev. Canon Smith.

The mode of admission to Huron College is as follows :—

(a) Application in writing to the Bishop, who will arrange for an interview.

(b) A certificate from the Medical Examiner of the College as to the physical capacity of the applicant.

(c) A certificate from *The Board of Preliminary Inquiry*, who will satisfy themselves as to his financial position, and other kindred subjects.

(d) A Matriculation Examination by the Faculty of the College.

## THE MEDICAL DEPARTMENT.

FOUNDED IN 1882.

The Fourteenth Session of this Medical School will open on Tuesday, the 1st of October, 1895.

The regular lectures will commence in accordance with the published programme.

The College building is commodious and well-arranged, centrally located on the corner of Waterloo and York Streets, convenient to the Hospital and Dispensary ; is heated, lighted and ventilated in the most approved manner, and supplied with all the latest improvements. The main building contains two spacious Lecture Halls, Chemical and Histological Laboratories, together with the Museum, Free Public Dispensary, Waiting Room for Students, Reading Room, etc.

The Dissecting Room, being in a separate building, is a sanitary arrangement that will be appreciated by students.

Intending students are requested to be present at the opening, so as to lose no portion of the course, for they may rest assured that even the most talented will find four years of close application none too much to prepare for this noble and responsible calling.

Students desirous of graduating at Trinity College, or the University of Toronto, are privileged to do so on presenting their tickets from this College.

The Medical Department of the Western University is now recognized by the Colleges of Great Britain, and its graduates are entitled to all privileges enjoyed by other Canadian Colleges.

Students are advised to take the Arts course in the Western University, which opens on October 1st, as a special course will be arranged and certain subjects taught in the Medical course will be accepted as a part of the Arts course.
